

December 2018

Dear Parents/Carers,

Year 11 Mock Examinations

From 14th January, Year 11 will undertake mock examinations in English, Maths and Science. This is to allow them to build on previous results and practice for the second time techniques for their public exams which will start in April.

As examinations play a major part in academic success, it is important that pupils become used to the process. We look forward to rewarding progress and working with all our pupils to ensure that they are able to achieve as much as they can.

All subjects should have sent home materials to help your child revise and that may include textbooks. We want our pupils to try their best but not to worry about the examinations. Please discuss these forthcoming examinations and revision materials with your child.

Yours sincerely,

A Thomas
