Message from the Headteacher

As we approach the Easter break, there is no doubt that there have been some considerable challenges of late on a worldwide scale and we appear to be moving from one crisis to the next. It has been of some comfort that we appear to have returned to pre-Covid organization and routines, although we are still being adversely affected by staff and pupil absences. In these uncertain times, education takes on new significance, and it is more crucial than ever that we work collaboratively and in partnership with parents and other stakeholders to provide the best possible outcomes for our students.

Our primary focus now that the Ofsted inspection is over (at least for a while) is on our Year 11 students, who will be taking formal public examinations for the first time starting in May. We also want to make sure that we are focusing on the broader education of all our pupils. After-school and vacation extra-curricular and study-time activities are popular, and we are very grateful to the teachers and pupils who are willing to put in the extra time and commitment.

The popularity of our school continues to rise, and we anticipate the largest year 7 cohort that I can remember. We have been pleased to host visits from our feeder Catholic primary schools and we are delighted to be able to show our new chapel (with the reservation of the Blessed Sacrament) and our excellent facilities. The inaugural Mass was celebrated last week by Bishop John Sherrington and was a moving occasion. The chapel is conveniently situated on the ground floor enabling attendance for private prayer, Masses and liturgical services.

We are all broken-hearted to see the tragedy that is unfolding in Ukraine. We are doing our very best in the school to support our pupils. We are giving them opportunities to talk and pastoral support that they need. The 'Student Well-Being Space' has been introduced which provides a place every day at lunchtime for pupils to go to speak to a teacher, get advice or support, or have some quiet time.

I am, of course aware that the cost of living is rising, and there are pressures on household budgets like never before. Despite this, our school body is continuing to donate to our charity collections. I have been moved by the generosity of our pupils and staff to our Ukraine appeal, and by the many who have brought in Easter eggs for

less fortunate children in the area. It looks as if we are on track to collect more than 200 large eggs. The pupils are looking forward to a non-uniform day in the last week of term, which will raise even more money for our Easter charities.

World Book Day gave an opportunity for staff and pupils to dress up and extol the virtues of reading widely. Literacy is the bedrock on which a good education is built, and we will give reading material to our lower school pupils to encourage them to read over the Easter holidays.

I am very pleased that the majority of our students dress very smartly for school, that they bring the appropriate equipment, leave mobile phones at home and behave responsibly as they make their way to and from school. We have had to speak to a number of students to remind them that e-scooters are banned.

We are sorry to say a temporary goodbye to Ms. Ibrahim (Science Teacher) who is going on maternity leave and we wish her well for the forthcoming birth of her baby.

We are delighted that our sporting teams continue to develop and thrive. Our boys football teams have almost completed their league and cup fixtures, with Year 9 progressing to the final of the Harrow cup. The match with Nower Hill to take place soon after Easter will be hard fought. Basketball continues to be extremely popular, with the year 9s already securing the Harrow League. The Year 10 Sports Science students immensely enjoyed and benefited from their trip to the Sonex stadium and under the supervision of Middlesex University undertook various time trials and fitness laboratory experiments. We were pleased to offer to twenty boys the chance to see England play at Wembley where they comfortably beat the Ivory Coast.

I commend to you this edition of The Salvatorian, which showcases the work of our pupils and the activities which have taken place this term.

I wish you a happy and holy Easter break and look forward to welcoming pupils back in school at the normal time, ready to start the Summer Term on **Tuesday 19th April**.

Martin Tissot
Executive Headteacher

Ukraine Refugee Appeal

Students in KS3 Art created sunflowers for Ukraine with prayers written on the back in order to make this large-scale Art response to the crisis Ukraine and its people are currently facing.

The display encourages students, staff and visitors of the school to give generously to the Ukraine appeal either online or donating directly through the school.

Mr Mann will be collecting money for the appeal every day on the gate. Please give generously!

Easter Egg Collection

This term our charitable focus has been collecting Easter Eggs for the Cardinal Hulme Trust and for some families within the community. Our Charity Ambassadors Zane and Bobby from 9B have been busy collecting each morning and encouraging all the school to be as charitable as possible. Total collection of Easter eggs:

- Large/medium Eggs: 246
- Creme eggs: 84
- Bags of mini eggs: 28

Congratulations to Miss Schipor and 7 Francis for collecting the most Easter eggs - 49. A huge thank you Zane, Bobby, Aryton and David in 9 Beckett for collecting all the Easter eggs from the classrooms. There will also be an Easter collection, where all money will be going to the Catholic Children's Society. Mrs Brown and Mrs Watt

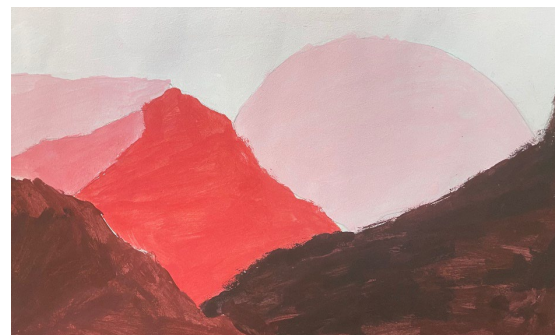

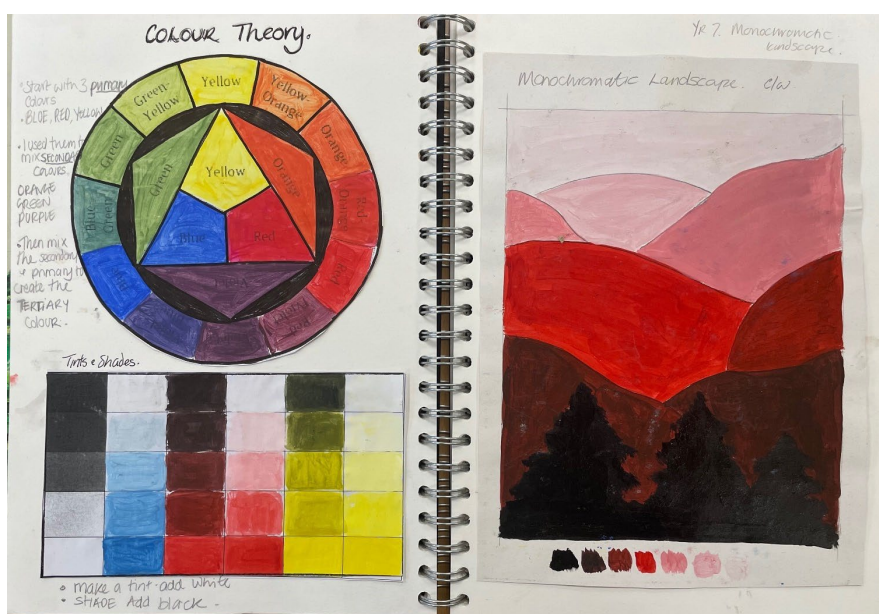

Year 7 Art have been studying colour theory and learned how to paint, mix tints, shades and hues, and eventually apply their understanding to distance and perspective to design their own monochromatic landscape. The paint they used is ready mixed poster paint and before undertaking the task they had to design four landscapes that show their

understanding of values and perspective. In essence, the further away the subject, the lighter it appears. They looked at 'Wanderer Above The Sea of Fog' by Caspar David Friedrich in preparation.

Have a look at the process and results!

Year 10 have been studying portraiture and below are two students who have worked exceptionally hard.

Pitiyangan's and Pirabakaran's portraiture work, Year 10

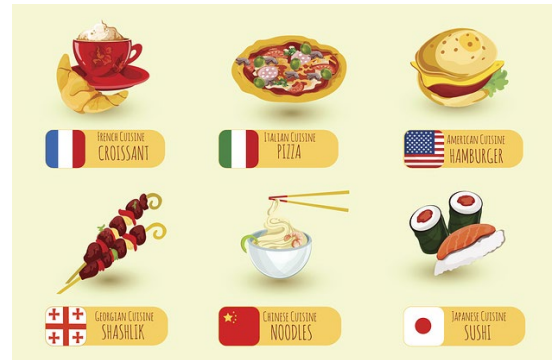

Year 7

This term Year 7 began their food tech/catering experience. They start with the basics such as kitchen appliances, how to cut, how to fry an egg, how to grill as well as food theory such as nutrition and health and safety. Initial cooking lessons include simple dishes such as tomatoes and cheese on toast (pizza breads) but they progress as the students learn more skills.

Do these dishes make you hungry?

As part of catering in **Year 9**, students were asked to plan, prepare and then make an international dish in one hour.

Sweet or Savoury?

Caleb

Aryan

Alexander

Ashil

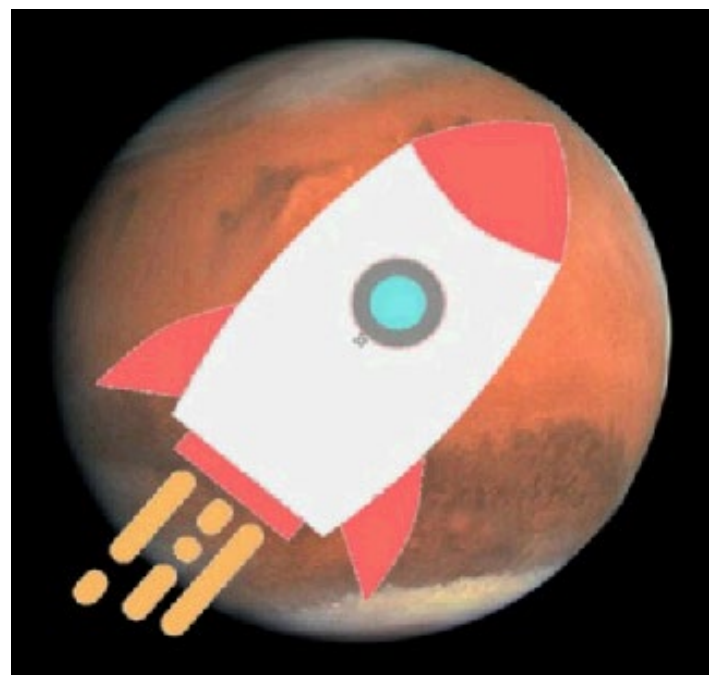

The Year 11 Mock exams took place this term. It involved the pupils planning for two dishes and cooking one. These are pictures of their final plate of food, however there are still some elements to improve on and accompaniments to add. Nevertheless, it was a great effort from the Catering class, as you can see from the preparation photos.

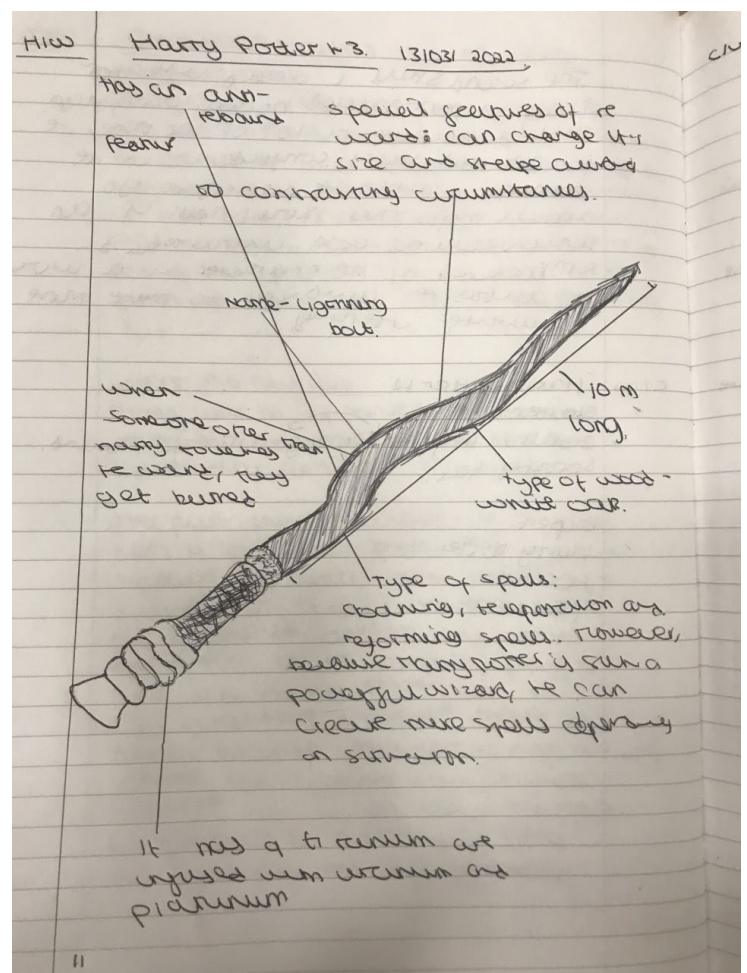

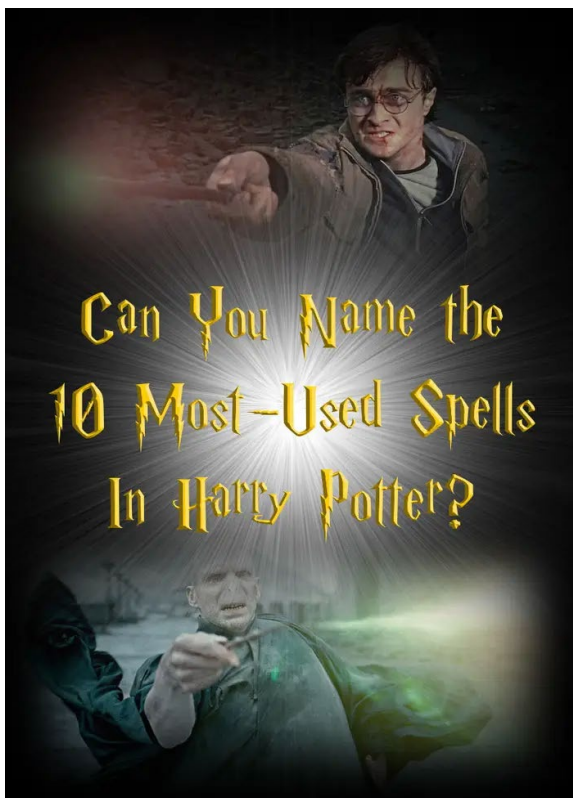

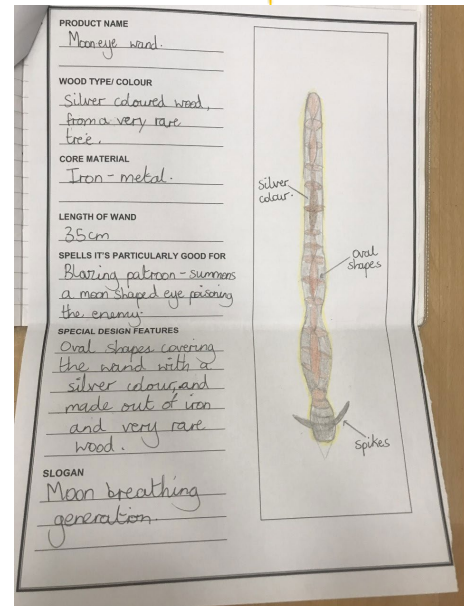

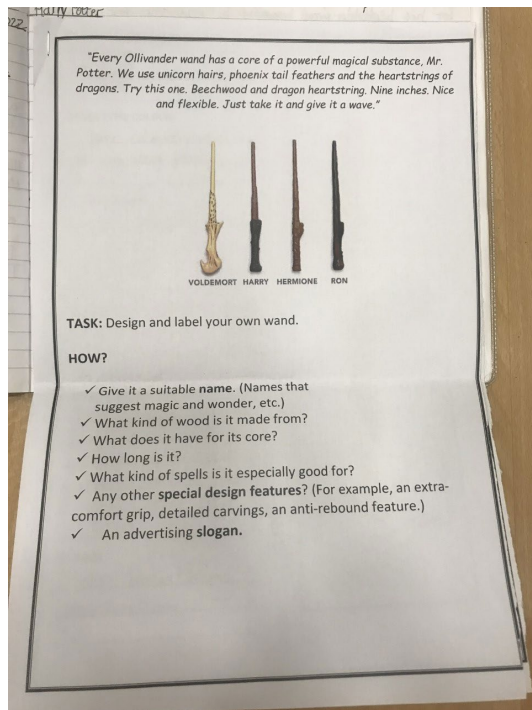

In Computer Science we have started our second assessment, to be able to effectively learn and use a new software. The software the students are using is called Gimp, which is a free and open-source raster graphics editor used for image manipulation and image editing. While learning some of the basic functions and techniques of the software, students have been tasked with creating their own logos for a space company, the logo must show evidence of original design and the use of the software's tools.

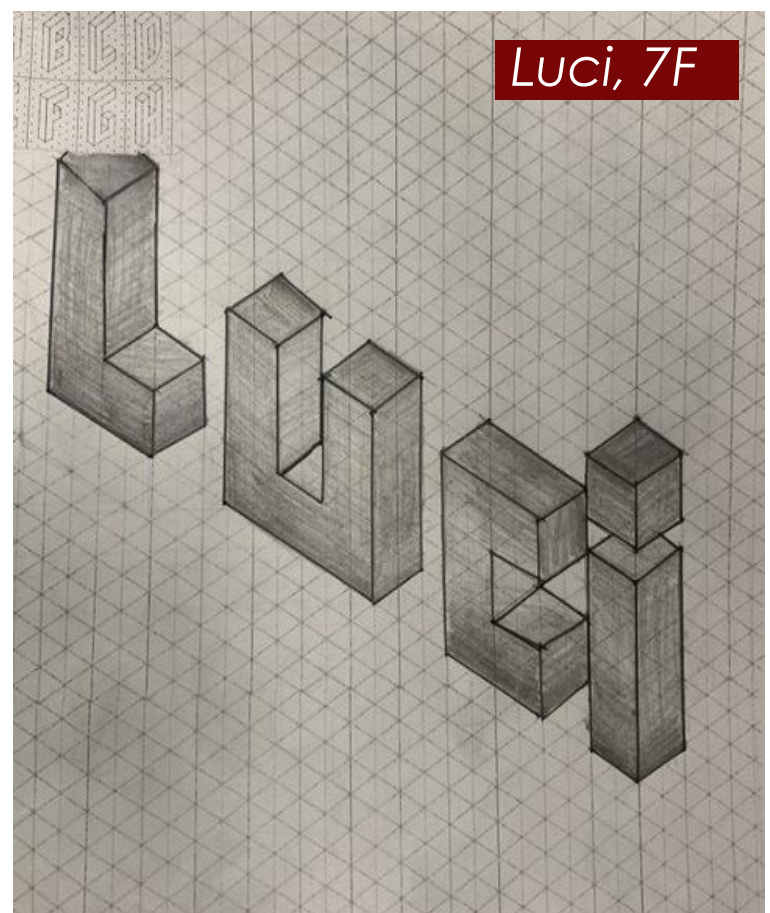

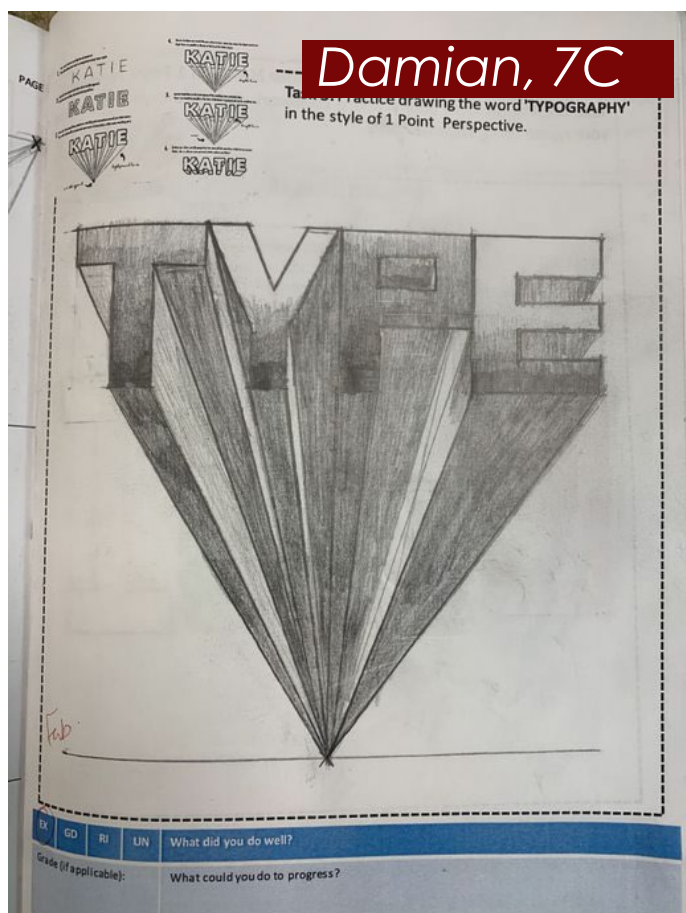

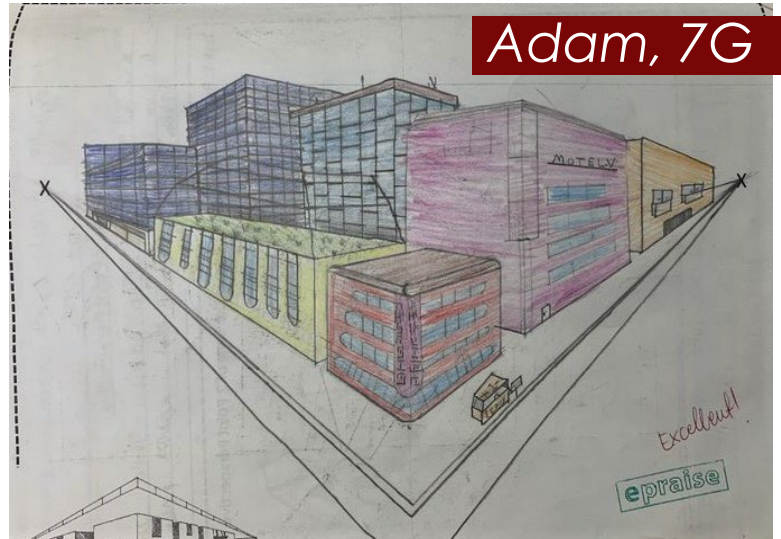

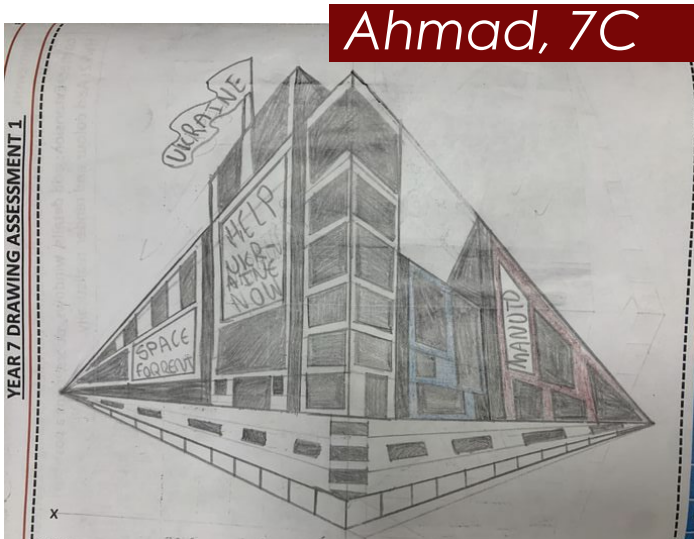

This term in Drama, Year 8 have been exploring the novel Harry Potter in script form. One task the students really enjoyed was creating their own magical wand. Here are a few examples.

Harry Potter

This term in Design Technology Year 7 have been studying technical drawing. The focus is mainly on perspective drawing, 1 point perspective, 2-point perspective, isometric drawing and crating. By the end of the term, students are expected to be

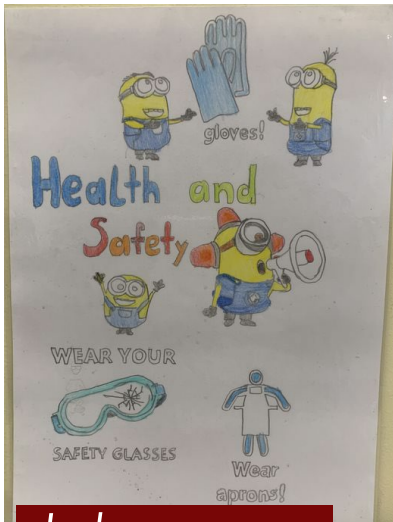

able to draw a street corner using 2-point perspective and their own name in 1 point perspective as well as use a variety of drawing methods to demonstrate they can design and convey ideas.

Design Technology

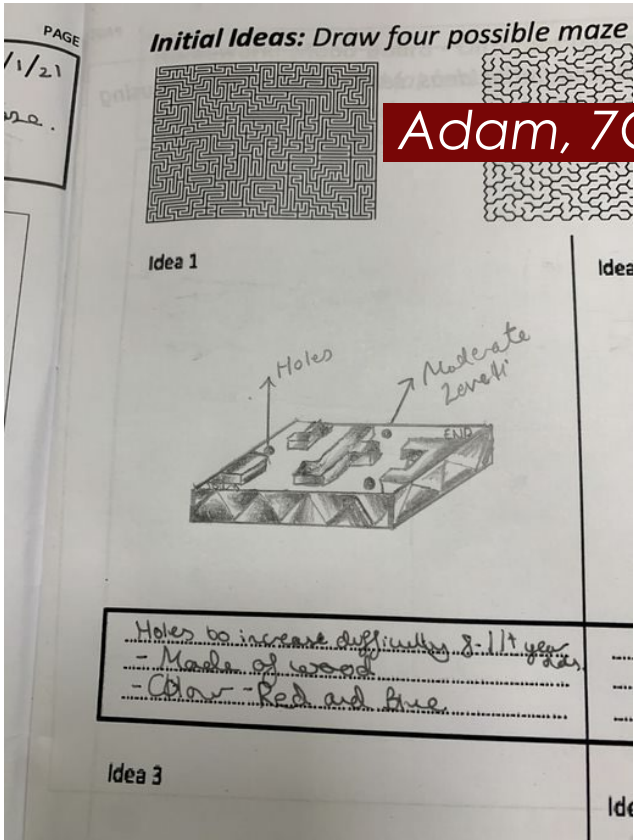

In Year 8, students have been learning how to build a maze game in Woodworking. They must demonstrate that they can design ideas for their own maze and then create their own design using MDF wood. Students are asked to model their ideas in cardboard before building their final prototype.

John Carlo, 8G

Zakariya, 8F

Adam, 7G

Gaheez, 8G

Homework: Research Woods
Research 3 different types of natural wood and explain their properties
Extension: Draw a product made from one of these natural woods.

Wood Type	Properties
Oak	Properties: Durable, long lasting wood. Highly resistant to wear and tear. It has a high level of water resistance. You can wash and scrub off any grime off the wood, and it will look brand new.
Pinewood	It is known as a softwood and it is quite durable. It is almost always available and it is not very expensive. Pinewood can easily snap off if enough pressure is pushed on it.
Maple	It is a hard-wood with a dark brown-reddish look. Pinewood and oak can buy the colour to a very high shine and it is exceptionally durable. It is the ideal choice for long lasting furniture and woodworks.

However it can be very expensive because of its unique looks.

It is quite expensive but worth because of its exceptional strength.

It is a hardwood.

What to do	Assessment Level
You have stuck in 3 images of wood types and names each one	Level D
You have drawn 3 images of wood types. Also named and explained the properties of each one	Level C
You have drawn, rendered 3 images of wood types. Also named and explained the properties of each one.	Level B-A

C/W Delivering a Speech

25/3/22

L.O. To incorporate and Practise delivering a speech.

starter: loud voice, fluent, clear purpose, strong argument.

Friend ships

Dear people,

On the last day for ~~me~~ in Salvo. My english was not good, so I spoke for the head and then I get the help. I was shae that I didn't make friends, or I can't make friend because I can't speak with them people I remember in year 7 I had some friends but then I notes that this people is not friend.

Do we need friends?

For me yes you need friends because now when I improved my english and convinced, ~~when~~ I notes that friends help you some time at work the can ~~can~~ ~~can~~ ~~can~~ But you need to now how is your friend some times you do have friends but not the way that you like them to be like. You need to never yourself convinced I shared my best with people that don't have friends. Some time with a word you can win a friend or lose friend. Why people don't like with respect?

~~I~~ I see some people take with not manners and poor behavior is not good. and the big problem when people say: I'm a bad man. And the forgot what god asked them to

do. What did God said? I don't think that God said bad man is a positive think. So ~~the~~ why do you do make the world better with a word or make some one day or a friend. make a friend with a word and don't lose a friend with word.

Thank you.

Chronic Wrist Pain And How it Effects me.

Hey, audience. I am here to invite you to a reality, My reality. A reality where your wrist will, most of the time, play with you. This is chronic wrist pain. Something that doesn't effect ME ONLY, but my education as well. The side effects are, when your wrist starts aching & irritating. And, this is very, very irritating. The way it effects me is by this, writing a LOT of things by pen. It happens in school days most the time, as I write all the time.

The way schools can help is by the following, they can send facilities to these students like me. Without these facilities, how are we meant to learn? What would we become of? We will be put to shame if we do not pass upcoming exams. And, teachers can set a scribe for students who have chronic wrist pain. And, with atleast some of the budget, ~~for~~ the teachers can use medical support. They can give special medicine or a machine.

About 20-30% of people suffer from chronic wrist pain and they are school students. One student said that he cannot concentrate while doing exams & that he would ~~not~~ ^{not} even pass most of his ~~less~~ exams. If schools don't take medical action, who, with chronic wrist pain, will be PASSING exams? You, head teachers, have the power to do this! You, government! You can make this happen!

The government! You all have the power to give the school funding for us! We want to be like like those people who needn't any medical attention!! We want to be something in the future. Doctors! Engineers! Composers, etc! How are we to do this or become this if we fail our exams. This choice is all yours

Elijah - 8A

This term Year 9 students have been learning about resources such as energy, food and water.

Whilst we were learning, unfortunately, the Ukraine and Russia war broke out we looked at the impact that this would have

on energy supply and prices. The samples of work show expert research and a clear understanding of the impact of the conflict.

Russia - Ukraine war

Darren 9G

27/2/22

Why is Russia important?

Russia is the world's top producer of natural gas and is the second largest exporter of natural gas in the world. Although the UK gets less than 5% of its fuel from Russia, fuel prices have gone to 149.2p per litre. The high fuel prices during these tensions would mean that in the UK, people may not be able to fill their cars with petrol. This can have many social and economic impacts. Firstly, it may mean travel will be extremely inconvenient for many as they will not be able to drive anywhere. This will spark frustration among drivers in the UK.

What are the long-term impacts?

Another economic impact of this conflict is the rise in wholesale gas prices. In the UK, prices for wholesale gas to be delivered has gone up by 9%. This will force gas companies to raise their prices meaning that consumers will have to pay more for gas used in the home. In addition, the cold weather around this time would increase the demand for oil and natural gas. This ultimately means people will spend more on oil, and have less to spend on other resources, such as food and water, which would result in a slowdown of economic growth in the country.

THE RUSSIA AND UKRAINE WAR

Russia is the second largest oil exporter in the world, as well as the world's top producer of natural gas. Russia is a vital country in the supply and demand of fossil fuels around the globe. Russia accounts for 1 in every 10 barrels of oil consumed globally.

Russia invading Ukraine is causing oil prices to rise which leads to higher fuel prices for consumers. This adds to the growing inflation, having a substantial impact on all those with vehicles. Some would not be able to cope with new prices and would have to resort to walking or other forms of public transport to travel, making things a lot harder.

Most of the oil and gas that the UK imports does not come from Russia, but it would be nonetheless be affected by a rise in global prices. The RAC warned that prices could be pushed further, even after they hit a record 149.12p per litre.

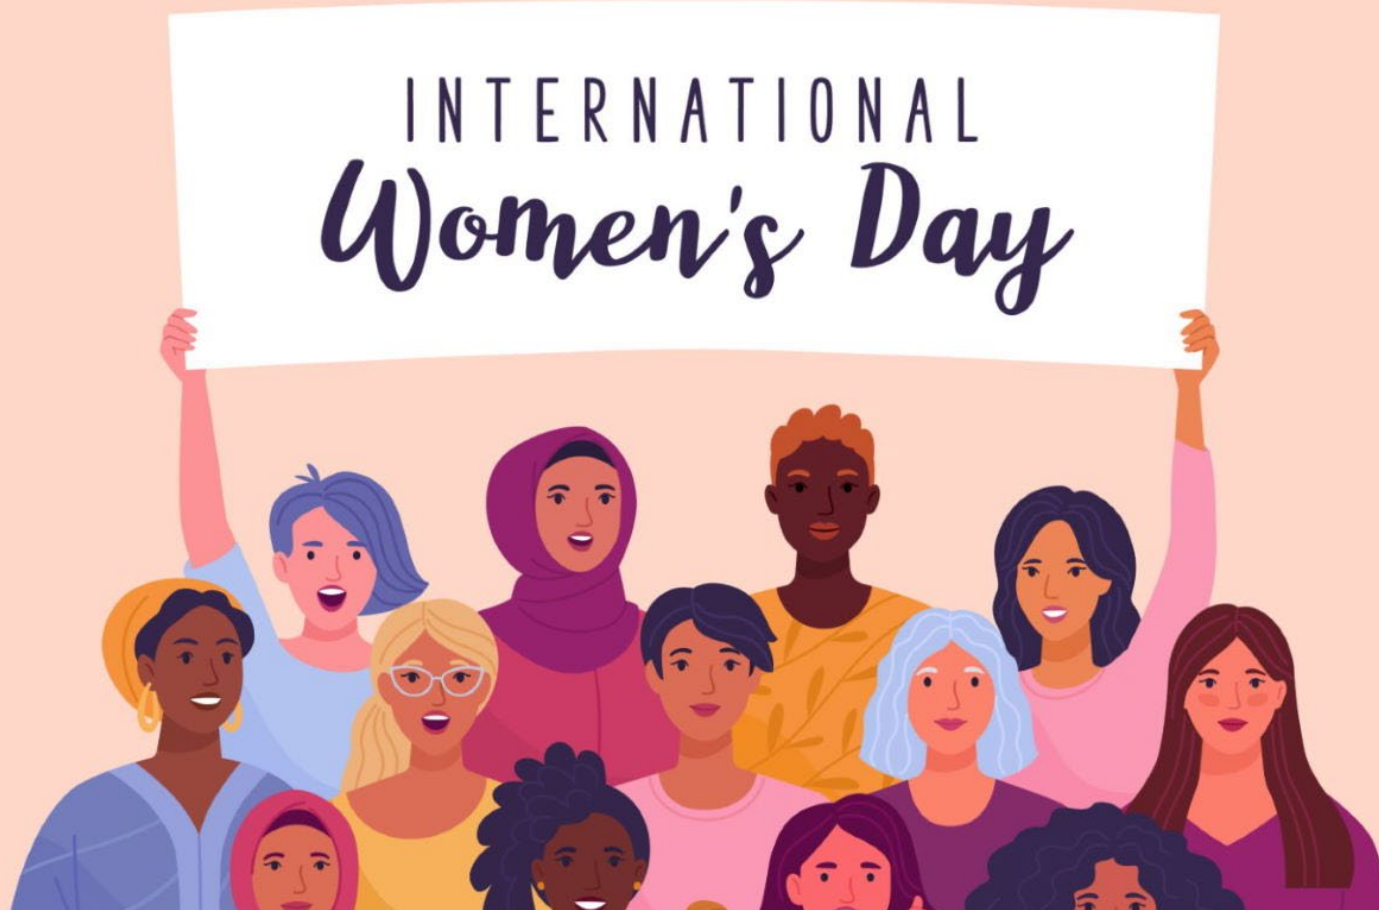

In History: International Women's Day and Women's History Month

Earlier this term, and with Women's History Month in mind, our Year 8 boys studied the question, "How did women in Britain get the vote?" During the unit, the students were introduced to several important figures in women's history such as Mary Wollstonecraft (an important writer and early advocate for women's equality), Millicent Fawcett (the founder of the National Union of Women's Suffrage Societies), and Emily Davison (a suffragette martyr). The unit yielded a number of thoughtful debates and questions and was really enjoyed by all.

International Women's Day is a global holiday celebrated annually on March 8 to commemorate the cultural, political, and socio-economic achievements of women. The earliest recognised Women's Day

observance was held in New York City on February 28, 1909 and was organised by the Socialist Party of America at the suggestion of the activist Theresa Malkiel. From there, the day was annually celebrated at the end of February or March to varying extents around the world.

Surprisingly, one of the earliest nations to declare an official International Women's Day was the Soviet Union in 1918, and they held it annually on May 8th. In 1977 the United Nations General Assembly invited member states to proclaim March 8 as an official UN holiday for women's rights and world peace. In the years since, International Women's Day has been celebrated, but March itself has also become recognised as Women's History Month, which devotes an entire month to celebrating the remarkable achievements of women throughout history.

The theme for International Women's Day this year was #BreakTheBias. "Imagine a gender equal world. A world free of bias, stereotypes, and discrimination," the official International Women's Day site reads on its homepage. "A world that is diverse, equitable, and inclusive. A world where difference is valued and celebrated. Together we can forge women's equality. Collectively we can all #BreakTheBias." The aim of this theme is to help everyone to recognise and challenge unconscious and deliberate bias that makes it difficult for women to be recognised for their contributions in the workplace and at home. The idea is that by raising collective awareness of the biases that women face daily, we can all promote gender equality.

But it is not just March 2022 when courageous women (and men!) have worked to break the bias that women face every day. Throughout history, spectacular figures have arisen and forged new paths and recognition for women. One woman in particular who I have admired my entire life is Clara Barton, an American nurse who lived from 1821 until 1912. Clara Harlowe

Barton was a field hospital nurse during the American Civil War (1861-1865), a patent clerk, and teacher. She is best known for founding the American Red Cross in 1881, which brought new standards and models into health care practices in the United States. Although Barton was forced to resign from the leadership of the American Red Cross in 1904 (her ideas of idealistic humanitarian did not match with the realistic efficiency of the Progressive Era), today she is recognised for the enormous and important role she played in changing American nursing and healthcare.

Throughout her life, Barton was a feminist ahead of her times, once remarking that, "I may sometimes be willing to teach for nothing, but if paid at all, I shall never do a man's work for less than a man's pay." She was a brave and courageous woman who forged ahead to break the biases of her time. She once declared of her bravery and perseverance, "The door that nobody else will go in at, seems always to swing open widely for me." She was inducted into the American National Women's Hall of Fame in 1973.

ENGLAND
GOLF

"Let's continue to challenge the status quo and be intentional about increasing the participation, particularly of those people who have not typically been able to access the sport."

Julia Regis

This is a beautiful piece of **French** writing in which Nash Pinto, Year 8ab French, talks about where he lives.

He has included 2 tenses, expressing and justifying his personal thoughts and points of view. He has shown good understanding of adjectives position and prepositions to

locate things in the house. Nash has included adjectives at comparative and superlative and a relative pronoun, giving good understanding of complex and varied grammatical structures and vocabulary.

Bon travail, Nash!

Chez moi ✓ samedi dix-neuf

Bonjour! Je m'appelle Nash et j'ai treize ans. J'habite dans une grande ville dans la banlieue de Londres dans le sud de l'Angleterre. J'aime bien habiter ici parce que c'est très joli. J'habite dans une nouvelle maison confortable. Mon meilleur ami qui s'appelle Léo, il habite dans une grande maison mais ma maison est plus moderne que sa maison.

Chez moi, il y a six pièces, la cuisine est à côté de la salle de séjour. Aussi, il y a trois chambres, ma chambre, la chambre de mes parents et la chambre de ma sœur. La cuisine est vraiment vieille et le salon est petit. La salle de bains est assez grande et moderne mais il n'y a pas de salle à manger.

Dans ma chambre, la fenêtre est à côté du lit et le miroir est à gauche du bureau. L'armoire est près du lit. Hier soir, j'ai joué au jeu vidéo avec mes copains pendant ^{Gr-sg} trois heures. ^{clément} C'est très intéressant! Dans le salon, le sofa est en face de la télé. À côté de l'étagère il y a la chaise et dans la cuisine, le frigo est entre le lavabo et le miroir.

À mon avis, j'aime beaucoup habiter ici car c'est très beau. C'est comment chez toi? =

Kausic Subakumar (Year 10) wrote a very good email in his last Spanish assessment. His email has a good structure with a greeting, four paragraphs covering all questions and a sign off. To get the top marks in this task, he included uncommon vocabulary, a variety of connectives, exclamations, opinions that are justified

and a range of verb tenses and structures. This is an excellent model answer for a GCSE Spanish writing question.

Name Kausic Subakumar Class 10G

El colegio

Tu amigo español te ha preguntado sobre tu colegio. Escribe un email a tu amigo sobre tu colegio y tus planes.

Debe incluir los puntos siguientes:

- La descripción de tu instituto
- Compara tu instituto con tu escuela primaria
- Tu opinión sobre las normas
- Lo que vas a hacer en el intercambio escolar

Justifique sus ideas y sus opiniones.

Escriba aproximadamente 80 - 90 palabras en español.

Hola mi amigo Haya. ✓

Mi instituto es muy grande, masculino y público. En mi insti hay muchos edificios modernos, pero también hay edificios ^{antiguos} y recién renovados. No ^{es} ^{que} ^{lo} ^{que} ^{muchos} ^{estres} por los exámenes y los deberes. En mi insti ^{no} hay ni piscina ni pista de tenis. ¡Qué aburrido!

Antes, en mi escuela primaria las clases eran más fáciles e interesantes. Mis profesores eran muy simpáticos pero ahora mis profesores ^{son} muy estrictos. Antes ^{en} ^{el} ^{día} ^{de} ^{la} ^{escuela} ^{era} ^{mas} ^o ^{por} ^{lo} ^{menos} ^{un} ^{poco} ^{mejor}. Sin embargo, ahora mi insti ofrece más oportunidades y ^{yo} ^{lo} ^{prefiero}.

I prefer it

Spring 1 assessment

En mi insti hay muchas normas. En mi opinión, aunque ^{las} ^{normas} ^{son} ^{justas} ^y ^{necesarias}, sin embargo, ~~antiguas~~ no se debe comer nada en clase y ~~no~~ ^{no} se debe usar ~~ni~~ ⁿⁱ móvil. ¡Qué rollo! Aunque ~~los~~ ^{los} a veces, las normas ^{limita} ^{mi} ^{libertad} ^{de} ^{expresión} ^{pero} ^{hay} ^{normas} ^{necesarias} ^{por} ^{ejemplo}, ^{no} ^{se} ^{debe} ^{correr} ^{en} ^{los} ^{pasillos}. ~~Hay~~ ^{Hay} ^{normas} ^{son} ^{necesarias}.

Entonces ^{durante} ^{tu} ^{visita} ^{visita}, ¡vamos a ir a clase juntos. ¡Va a ser genial! Mi asignatura favorita es ciencias, sobre todo química, porque es muy interesante y divertida. Mi profesora de química es muy simpática y graciosa y creativa ^{crea} ^{un} ^{trabajo} ^{de} ^{espacio} ^{de} ^{trabajo} ^{divertido} ^{positivo}. Luego, vamos a ir al club de arte y vamos a dibujar. ¡Qué guay! Finalmente, vamos a jugar al fútbol con mis amigos en el patio, porque ^{en} ^{mi} ^{insti} ^{no} ^{hay} ^{un} ^{paseo} ^{de} ^{fútbol}. Sin embargo, ^{va} ^a ^{ser} ^{genial}. Hasta pronto! Kausic.

Basketball

Year 9 Harrow Borough Schools Champions

Salvatorian College were crowned Year 9 Harrow Borough Schools Champions following a tense game against Hatch End. The game was tied at 22-22 going into the final quarter. The boys dug deep and scored ten points without reply to emerge 34-24 winners Congratulations to all the boys involved.

Year 9 Football

The Year 9 football team advanced to the semi-finals of the Harrow Schools Cup following a 4-1 win over Canons High School. Good luck to the boys for the rest of the competition.

Olympic weightlifting class

Mr Malik has been running an Olympic Weightlifting class at lunchtimes twice a week. The students are learning the following lifts:

Power Clean

Front Squat

Squat Clean

Push Jerk

Power Snatch

Squat Snatch

Table Tennis

The Year 7 team came as runners up in the Harrow Schools Table Tennis Tournament. A brilliant achievement. The boys represented the school very well ,displaying some excellent skills and competitiveness.

Year 7 Junior NBA

Salvatorian College has entered the Junior NBA tournament for the first time this year. Salvatorian College has teamed up with Sacred Heart Girls School to play in a co-ed league for Year 7 pupils. Schools represent one of the franchises from the NBA in America and we have been chosen to represent the LA Clippers. It has been a wonderful experience working with the boys and girls from both schools and their performances continue to improve every game that they play.

Year 11 Volleyball

Year 7 creative expression of their learning about the Seven Sacraments. After performing a live reading of the poems to the class the following two were selected for the magazine.

Sacraments

Initiation, initiation how proud to be one of God's creations, the Lord's family spreading across all nations, the cleansing of the mind spirit and body held in baptism a sacrament in many. Rejecting the devil and renewing the faith confirmation is held in the safe, with the wine as his blood and the bread as his body Jesse Gave his life for everybody. Healing of the spirit and forgiveness of the wrong reconciliation is where forgiveness belongs, the laying of the hands, the Call of Christ healing of the sick just like Jesus did with all his might. The sacrament of marriage, the house of love, the bride's dress as white as a free dove, the walking of the aisle the love with no lie, the sacrament of marriage a beauty to the eye. Holy orders a word from God anointed with the oil of Chrism. Escaping sins prison evoking the holy spirit with the angels behind singing god's lyrics. The sacrament of initiation, healing and ministry bring Christians closer to God in peace and harmony.

By Shubh Sharma

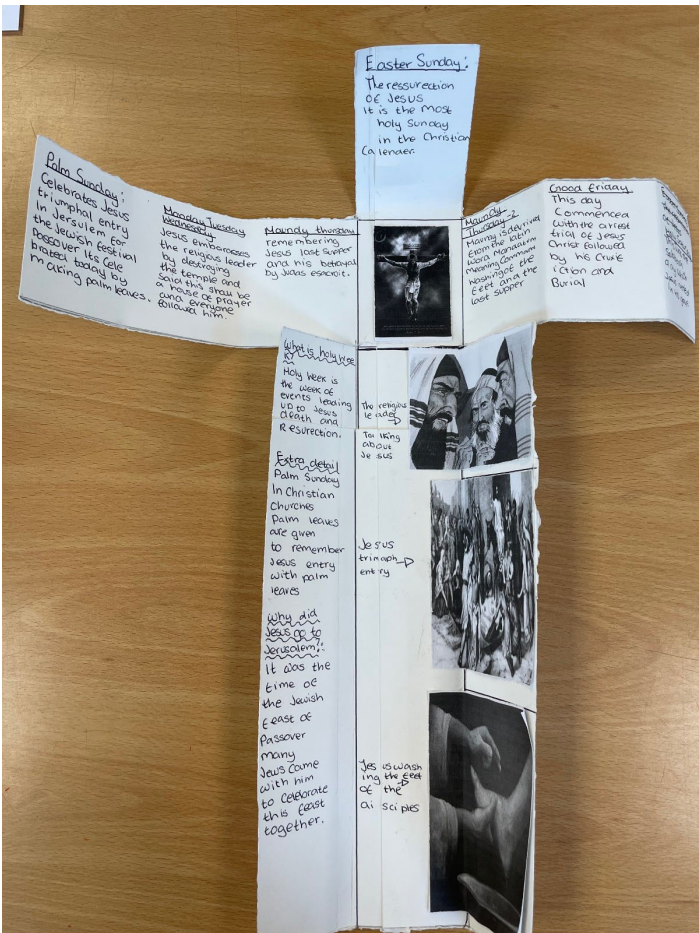

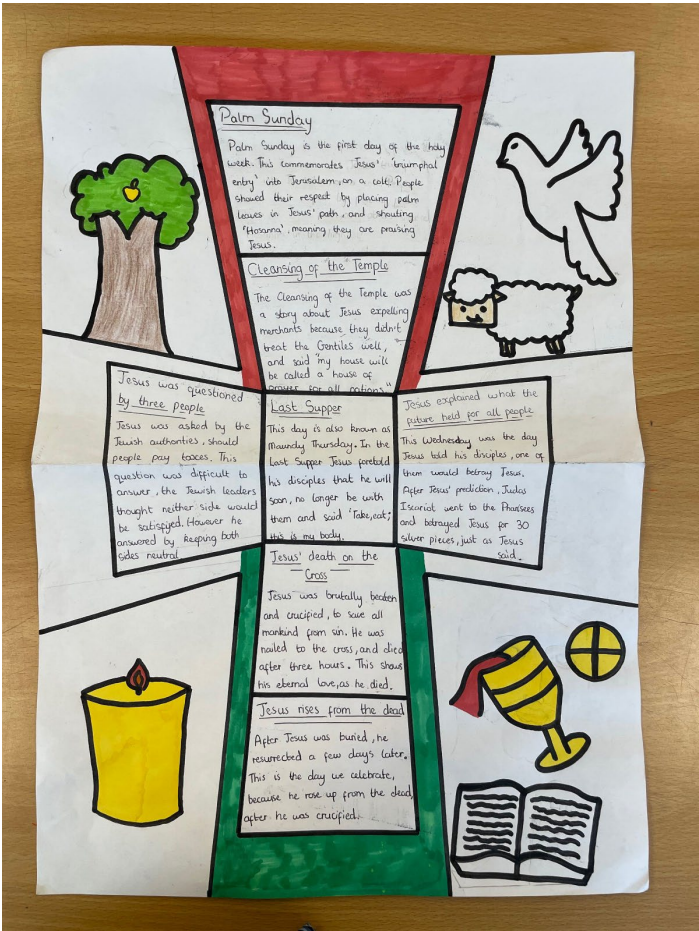

First of all,, the sacraments of initiation, Baptism, get anointed with the oil of chrism, and join the family of the creator of creation. Confirmation, start a new life with the Christian nation, have the sin washed away and block the temptation. Communion, the reunion with the body and blood of Jesus Christ through the process of transubstantiation.

Secondly, the sacraments of healing. Reconciliation, understand your sins and be ready to be forgiven, say your confession, give your penance to show your willingness, finally shower in the sensation of being reconciled. Anointing of the sick, when you're feeling ill the priest will come round with the holy spirit and give you a kick, and know, you'll no longer be sick.

Lastly, the sacraments of ministry. Holy orders, you want to be priest, it's not that easy, first you will need to become a deacon for this you'll need to be prostrated. Now you'll have the power of the holy spirit. Marriage, the union between man and woman, not only an agreement for the two but one with God. Initiation, healing and ministry, they all bring us closer to God you see, whether it's joining God, having your sins blown away or even getting a knock on your door from the holy spirit. They all strengthen our relationship with the lord.

By Gert Zeqiri

Blessed Francis Jordan Chapel

On the Feast of the Annunciation, we welcomed Bishop John Sherrington to open and bless our new school chapel, dedicated to Blessed Francis Jordan.

British households create over 26m tonnes of waste each year, the weight of around 260 large cruise ships

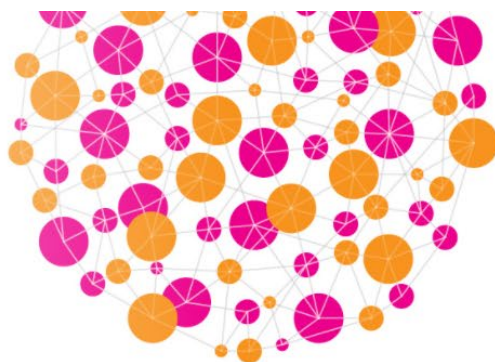

In the UK, we are only recycling 3% more waste than we did in 2010.

It takes up to 500 years for plastic to fully decompose.

Youth Club

Students, supported by teachers, now run Youth Club. This means students get a big say in the planned activities. They set up the spaces for students to enjoy. Students run the tuck shop, games hire station and registration. Students also now run the cinema room and Art Space, choosing the films and activities for that week.

You can play any games or sports you wish! Currently, we have three snooker and pool tables, six table tennis tables, Fuzzball, air hockey, and video games such as PlayStation, Wii and Nintendo. Students are free to rent and use any of these stations during Youth Club. They need only their membership card. If you fancy a quiet break, you can head over to the cinema room which features a different film every week.

You can have fun developing skills! Take a trip to the Art room to learn some painting, or the hall to have some piano practice, or even a cooking session to learn how to make a new tasty treat! The decorated cookies are always excellent!

And of course, the trips!

You can expect to attend Bowling, Treasure Hunts, Winter Wonderland, Theme Parks, Football Matches and the Theatre! To join Youth Club, either fill out an application online via the school website or speak to Mr James to receive an application.
